

Resodyn Acoustic Mixers Business and Product Overview

Lawrence C. Farrar

1

Corporate Background

- Established 1994
 - Product developer and manufacturer of World Class products
 - Business focus is state-of-the-art, high-tech processing equipment development, design and manufacturing
- Recognized Technology Leader and Solution Provider of Mixing Technologies for Multiple Industries Globally

Facilities Offices and Laboratories
Butte, Montana

Fabrication, Manufacturing and Process
Development

2

R&D, Design and Manufacturing

- Research & Development
- Engineering
 - Design
 - Solid modeling
 - Analysis
- Process Development Support
 - Mixing
 - Systems configuration
- Manufacturing & Service
 - Procurement
 - Fabrication
 - Quality
 - Assembly
 - Test
 - Installation
 - Operations training
 - Maintenance

Innovative Mixing Solutions

Vision
Develop and provide innovative and advanced resonant mixing and processing technologies that *drastically increases the productivity and capabilities of our customers*

The slide is numbered 5 and includes the 'Technical InterChange 2026' logo.

5

Technical InterChange 2024

We shall describe what the ResonantAcoustic® Mixing technology can do and how it will

change the way that you think about processing

The slide is numbered 6 and includes the 'Technical InterChange 2026' logo.

6

Innovative Mixing Solutions

- **Strategy**
 - Solution provider
- **Tactics**
 - Learn Industrial Needs
 - Market to Identified Opportunities
 - Sell
 - Equipment
 - Services (equipment rentals, toll mixing)
 - Process Development Service
 - Custom Technology Development Service
 - Product Support and Service
 - *Provide a Value Proposition*

7

Innovative

Resodyn Acoustic Mixers Product Development, Marketing and Sales Approach

- Continued Sales of Existing Products Internationally
- Expand Existing Product Line
 - Into “known” applications/markets
 - Develop strong International Growth with existing products
 - Identify new industries and applications
- Develop, Manufacture and Sell Product Line Extensions
 - Continuous Acoustic Chemical Reactor
 - Bench, Pilot and full-scale continuous chemical reactors
 - Continuous Acoustic Crystallizer
 - Bench, pilot and full-scale continuous crystallizers
 - Continuous Microreactor
- Client Driven Product Development and Customization

11

11

Resodyn Batch Systems Product Line

- LabRAM Original (R2-D2; retired, but will support until 2025)
- LabRAM I
- LabRAM II
- LabRAM II H
- PharmaRAM I
- PharmaRAM II
- OmniRAM
- OmniRAM H
- RAM 5
- RAM 5H
- RAM 55
- RAM 55 H

12

Technival InterChange 2026

12

Resodyn Continuous Systems Product Line

• Evolving Continuous RAM Systems

- OmniRAM
- OmniRAM H
- RAM5
- RAM5 H
- Chemical Reactor*
- Crystallizer*
- Microreactor*

Continuous
OmniRAM
Standard and
H Models

Continuous RAM5
Standard and
H Models

* Products Currently in Development

• Numerous Accessories Available to Enhance Processing Capabilities

Resodyn Acoustic Mixer Capabilities/Services

- Mix Testing of Client Materials
- Toll Mixing (Limited)
- Mix Development for Various Client Materials
 - Batch - Bench → Pilot → Industrial
 - Continuous - Pilot → Industrial
- Mix-in-Case Fixture Design, Development and Manufacture
- Turnkey Continuous Mixing Systems
- Continuous Chemical Reactor and Crystallizer System Configurations and Process Development
- Custom Mix Vessel Design (batch and continuous)
- Robotic and Automated System Configurations

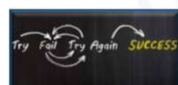

14
