

TECHNICAL INTERCHANGE

An Introduction to Continuum Equity Partners

Butte, Montana
September 2026

IN THREE PARTS

01 Who We Are

A Pittsburgh firm that invests in family and founder-led industrial businesses

02 Why We Invested in Resodyn

Industrial mixing is critical infrastructure, and Resodyn's technology has no equal

03 What to Expect

Our three biggest commitments from day one, with more underway

1

Who We Are

A Pittsburgh firm that invests in family and founder-led industrial businesses

INDUSTRIAL LEADERS

Two decades investing in, operating, and advising industrial businesses. Founded five years ago in Pittsburgh.

WHERE WE INVEST

Family-owned and founder-led American industrials. We grow them and keep them in the towns that built them.

OUR SUBSECTORS

METALS

COMTEC, Cutting Edge, Kottler

Precision machining and complex steel bending.

INDUSTRIAL VALUE CHAIN

Anchor Fluid Seals, NC Filtration, Lang Specialty Trailers

Seals, air filtration, and site infrastructure.

POWER GENERATION

MindCore, Electro-Tech Industries

High-voltage switching and power distribution.

MATERIALS PROCESSING

Resodyn

Resonant acoustic mixing. Our newest platform.

THE TEAMS INVOLVED AT RESODYN

INVESTMENT

- Capital, banking, and lenders
- Analysis behind big decisions

OPS & TRANSFORMATION

- Runs the growth plan with management
- Playbooks, coaching, capacity

RESEARCH AND OTHER

- Market intelligence
- Project specialists

A collaborative model.

We work with and support management, who lead day to day.

Why We Invested in Resodyn

Industrial mixing is critical infrastructure, and Resodyn's technology has no equal

OUR GOAL

Reach

Put RAM in the hands of every customer who needs it.

LabRAM I

smallest unit

RAM 55

largest unit

Why we wanted to be part of it

1 Essential end markets

Aerospace and defense, pharmaceuticals, and additive manufacturing. Industries the rest of the economy leans on, and industries that cannot afford a mixing step that does not work to its full potential.

2 Growing critical demand

Energetics and solid rocket motor production are in a capacity expansion the country has not attempted in decades, and safe scalable mixing sits on the critical path.

3 Superior technology

RAM does things blade mixing cannot, and the physics and applications experience behind it sits in this building.

What to Expect

Our three biggest commitments from day one, with more underway

1 · Commercial Reach EVERY MARKET WHERE RAM FITS • Marketing and BD leadership • Market research and entry • Partnerships that extend our reach	2 · World Class Production DELIVERY YOU CAN COUNT ON • Investment in production capacity • On-spec, on-schedule, every order • Field service depth	3 · The People You Rely On BEST WORKFORCE IN MONTANA • One team that knows your program • Continuity for our relationships • We ask, and we act
--	---	--

A SHARED ROADMAP: Resodyn sets the technical direction, we build the plan together, and we bring the horsepower to commercialize it.

Thank You

We are here for the long term, and the best of this is still ahead

Resodyn's technology is unrivaled.

Our goal is simply to put it in the hands of every customer in every end market where it fits.
Find us during the breaks and tell us your ideas.
